SINCE 1841, the College of Literature, Science, and the Arts (LSA) has been educating young leaders through a rich liberal arts curriculum and creating new knowledge through world-class research and scholarship. The College is built upon the cornerstone of the liberal arts: the idea that a powerful, pragmatic, broad education can transform hearts and minds, solve problems in an ever-changing world, and yield ideas and innovation across every discipline.

We offer more than 100 degree programs in more than 75 academic departments and programs. Through the LSA Opportunity Hub, you can make the most of what you learn by pursuing internships, finding mentors, and connecting with a broad network of employers and alumni. In fact, we have one of the largest alumni networks in the world, with more than 225,000 living LSA graduates.

As the largest college at U-M, with 40 top-ranked programs, LSA continues to build on an established tradition of educational excellence.
