

RCSSCI 360.004: WHAT'S FOOD GOT TO DO WITH IT?

SCIENCE, AGRICULTURE AND JUSTICE IN THE FOOD SYSTEM

Tuesdays and Thursdays 4:00 to 5:30 PM

COURSE DESCRIPTION:

In this course we will examine how our food system got here and what are challenges and possibilities moving forward. We will cover 3 main sections: (1) food literacy and nutrition, (2), our local food system and (3) health and food justice. As a community based learning course, students will create a lesson for middle school students that addresses the topics learned in class. These lessons will be taught by the students at a local middle school as part of the course.
