Congratulations on your admission to U-M and the [Comprehensive Studies Program](#) (CSP)! You have been selected to join the [Summer Bridge Scholars Program](#) (SBSP) where you'll have the opportunity to jump start your college education with 6 credits and build connections with other students, dedicated staff, and esteemed faculty.

**You might be wondering what CSP and SBSP are all about.**

## What is the Comprehensive Studies Program?

Born out of student activism, CSP is an academic community of approximately 3000 scholars, along with faculty and staff, organized around the principles of anti-racism, equity, and inclusion. Scholars have access to a variety of academic resources, such as holistic and individualized academic advising across their entire U-M undergraduate career, access to CSP sections of courses which feature smaller class sizes and more time with the instructor, program-provided tutoring, and more!

## The Summer Bridge Scholars Program

Mark your calendars! Administered by CSP, the Summer Bridge Scholars Program (SBSP) is a seven-week academic program that takes place from June 25 - August 19, 2022. The University of Michigan Office of Undergraduate Admissions staff has identified you for this exclusive opportunity based on a holistic review of their application. As a talented scholar, you'll experience highly individualized academic advising, personal attention from faculty, and an intensive, nurturing environment. You will learn to leverage your academic skills in this new college setting, make friends, and familiarize yourself with our campus and its resources. Similar to what you will experience in the Fall term, you will have academic commitments Monday through Friday.

SBSP is an in-person, residential experience and living on campus is required. We will continue to follow public health and university guidelines in our planning process and notify admitted scholars directly of any changes. We will provide updates on how to apply for housing in future newsletters.
