

Tools of the Trade

Instructions: We use tools every day, and so did the people of the ancient Mediterranean — to create, to build, to repair. Explore the [Kelsey Museum's online exhibitions](#) and see if you can find these different categories of ancient tools. Note the name of the tool, the exhibition it is found in, and if there are any modern tools we use to do the same thing (or if we still use the same tool today).

Category	Name	Exhibition	Modern Version
Medical tools			
Writing tools			
Cooking/food preparation tools			
Tools for trade			

Bonus: Name three tools used by archaeologists to study the past (Tip: see [Urban Biographies](#) or [Discovery!](#))
