Bullet Journaling Club – Emily Shiau and Ying He

Comic Book Creators Club – Maddie McFarland and Chelsey Brutlag

Creative Writing Club – Britney Moreira and Camryn Banks

Film Club – Grace Guthrie and Tyler Davis-Kean (w/Creative Mentors Alyson Grigsby, Noelle Wade, and Ryan Bennett as Consultants)

Music Club – Conrad Pan and Josh Snyder

New Mediums, Who Dis? Club – Natasha Gibbs, Charlotte Fater, and Brenda Harvey

Poetry in Performance Club – Mitchel Dipzinski and Dominique Witten

Practical Arts Club – Marin Tarnowski and Nicky Billovits

1. **Art and Technology Club:** The Art and Technology club seeks to bridge the gap between technology (tools and coding) and art. Together, we will explore new mediums to express ourselves and create beauty. We will be learning and using programming skills and technologies to create digital art in a no-pressure, relaxing environment which will culminate in a group portfolio.

Wednesdays, 8-9:00 pm, Conference Room 1509 (limit of 8 members)

2. **Arts and Literary Journal Club:** At the end of each year, LHSP publishes an Arts and Literary Journal of student works that encapsulates the year's creative spirit. As a member of the Arts and Literary Journal Club, you will consider, discuss, and vote on submissions, as well as participate in digitally building the Journal itself. Club members will have a special insider's view of the work of their fellow LHSPers, while also encouraging them to explore a variety of written and art forms. You will learn about InDesign and Photoshop, and how to make and publish your own book or journal.

Wednesdays, 8-9:00 pm, Classroom 2060

3. **Bullet Journaling Club:** The bullet journal is a wholly-customizable system of organization that transforms a blank notebook into your to-do list, sketchbook, journal, planner, or all of the above! If you enjoy planning ahead and expressing yourself artistically, you may find that this is the club for you! Wind down with us for an hour each week, as we'll supply all the resources for you to create a bullet journal worthy of being your personal assistant.

Wednesdays, 8-9:00 pm, Art Studio

4. **Comic Book Creators Club:** We hope to inspire you to create your own original content through the mediums of comics and zines. Club members will explore and learn about a combination of elements that bring comics to life: namely, drawing, writing, and design. In creating comics and zines, we will examine what makes a good character, world building, different comic styles, and creating stories.

Thursdays, 8-9:00 pm, Art Studio

5. **Creative Writing Club:** Creative writing is all about finding freedom with your words, escaping the boundaries of academic and professional writing and leaving behind rules and expectations. In Creative Writing Club, we hope to provide a place of both safety and growth in which to practice your craft and discover talents that you may not have ever known existed. You'll be free to explore literary tropes, narration, and experiment with words in ways that'll help you tell stories and find a strong writing voice that you can be proud of.
Mondays, 8:15-9:15 pm, Room 2012 (*however, the first club meeting will be in Classroom 2060*)

6. **Film Club:** Film Club is for anybody with an interest in... well, film! We welcome any experience level, so whether you've already written and directed your own feature film, or if you've never even seen a movie before, we invite you to join us. Members of the club will work together in all aspects of film production – from writing, directing, acting, editing, or behind-the-scenes work - to create original short films in a fun and low-pressure environment. By the end of the year, club members will also be able to list the final project(s) in portfolios/film reels.
Wednesdays, 8-9:00 pm, Classroom 2012

7. **Music Club:** The vision of Music Club is to bring together people who share a love of music and allow them to collaborate with one another in order to express that passion. Students will have the opportunity to share their favorite genres of music, as well as discover new styles of music in a relaxed and friendly atmosphere. Music Club will involve forming ensembles and performing, as well as other endeavors based on interest, such as attending performances and busking.
Thursdays, 8-9:00 pm, Den &/or Living Room

8. **New Mediums, Who Dis? Club:** Have you ever wanted to dip your toes in to a kind of art you haven't tried before? So have we! "New Mediums, Who Dis?" will focus on crafts and art mediums that we haven't experimented with before, and members will have input on the direction we take. We will also explore the way that different life experiences can change one's interpretation of a prompt given.
Thursdays, 8-9:00 pm, Art Studio

9. **Poetry in Performance Club:** Poetry in Performance club will give club members the opportunity to learn and grow in poetry in a welcoming and safe space that we will create together. Club members will be able to explore what poetry really means to them, and they will have the chance to nurture their own sense of self and identity through their works. They will have opportunities to workshop, free write and perform in front of an open community.
Thursdays 8-9:00 pm, Classroom 2060

10. **Practical Arts Club:** The Practical Arts club is for anyone who is interested in being creative while still learning useful skills. Our objective is to offer projects based on later-life skills, like cooking, gardening, and fabric-based work, such as embroidery and knitting. Club sessions will include workshops that may be taught by special guests with expertise in these areas. You'll have an opportunity each week to make something that is creative, artful, *and* useful to take with you.
Monday 8-9:00 pm, Art Studio
