SINCE 1841, the College of Literature, Science, and the Arts (LSA) has been educating young leaders through a rich liberal arts curriculum and creating new knowledge through world-class research and scholarship. The college is built upon the cornerstone of the liberal arts: the idea that a powerful, pragmatic, broad education can transform hearts and minds, solve problems in an ever-changing world, and yield ideas and innovation across every discipline.

We offer 91 majors and sub-majors and 115 minors in 41 academic departments. Through the LSA Opportunity Hub, you can make the most of what you learn by pursuing internships, finding mentors, and connecting with a broad network of employers and alumni. In fact, we have one of the largest alumni networks in the world, with 221,819 living LSA graduates.

As the largest college at U-M, with 38 programs ranked in the top ten, LSA continues to build on an established tradition of educational excellence.
