Printmaking Club

Printmaking is a unique handicraft and is a wonderful tactile art. It is rarely taught in highschool art curriculums unless the course is expressly dedicated to it -- so why not bring it to LSWA? Whether you're a veteran printmaker who is passionate about the art and desires to experiment with it, or have never printmade and want to try something new, this club is for you! This is an opportunity to do art for the enjoyment of it, not for any particular deadline or class -- printmaking club is to learn the art form and do what you want with it! We'll learn several different forms of printmaking, And of course, we'll have lots of fun too.
