- Data Visualization

Tools you will learn to use:

- R
- Excel
- Tableau

QMSS 201

INTRO TO QUANTITATIVE METHODS IN THE SOCIAL SCIENCES

This course addresses “What is Quantitative Social Science?” by introducing substantive problems that can be solved with data.

It provides an overview of research design (e.g., experiments, surveys), data-gathering, and hands-on experience using data to ask and answer research questions, and educates students about ethical issues around data, data analysis, and reporting.

FAQs

- Open to all majors
- No prerequisites
- Meets both MSA and BS requirements
