Accelerated Reading in Italian

Accelerated Reading in Spanish

113 is an accelerated one-semester course that is primarily designed for graduate students that need to acquire reading proficiency in order to be able to read articles pertaining to their areas of research. This course will not only provide students with a proficient reading knowledge, but will also facilitate the translation of texts dealing with a variety of disciplines. The principal structures of grammar and main lexical features will be analyzed in a systematic and coherent way. In this manner, the development of reading and translating abilities in will be achieved.
