

Canada is Knox Knox knocking on it do'  
But with all this Detroit music  
You will never wanna go  
Here are some examples of that Detroit Flow  
Eminem, Big Sean, Motown, Techno  
Detroit be making stars, making music  
Making money, getting to it  
Don't be fooled by what they say on the media  
That's an illusion  
What you really need to worry about is all the exclusion  
Before Detroit fuck around with another revolution  
News call it a riot though  
You fed they lion too much now you gone watch it grow  
Disrupt a veteran's party? Now you should have known  
Acting shocked but you stabbed that fork in that socket  
Now watch electricity overflow  
Motor City on a roll  
Bulldozing black neighborhoods  
You call it Urban Renewal  
We know its downright refusal  
It seems like black people can't be great  
Without a stamp of approval  
From these white people in the city  
Voting in their committee  
These people will abandon a whole block with no pity  
Forgetting black people made Detroit That City  
Forgetting black people made Detroit so pretty  
They Looking down on the people that made Detroit survive  
Looking down on the people that kept Detroit alive  
You say "Detroit is this" No  
"Detroit is that" Woah  
Detroit the only city can't continue to grow  
Jamon Jordon will tell you everything you need to know  
Because Detroitains just like pigeons  
Rep they city fasho  
In its entirety  
Accepting all different types of people nationality  
Chinatown, Greektown  
Celebration all around  
Celebrating Diversity  
Working together cuz difference don't mean adversity  
Making it better for you don't mean it's Worse for me  
That's how it's post to be  
But they don't wanna keep us together

We stand strong in the weather  
Being divided make us foolish but together we better  
So they made rules for us to separate  
Spreading rumors to spread the hate  
Go over to 8 mile and you can see the gate  
That little cement wall holds a lot of weight  
Allow me to elaborate  
White people made a fuss  
Didn't want black people as their neighbors  
So in a meeting they had to discuss  
How to separate the "good" from the "bad"  
And that's when the walls came up  
The wall is small but if it kept us separate then it was tall enough  
That's what you see today  
A symbol of racism to keep POC away  
So if I hear you call 1967 a riot  
Hit you with a quick left, I'ma mess up your diet  
Cuz this knuckle sandwich will make you gain weight  
Maybe that bump on your lip will remind you to keep ya facts straight
